ADDENDUM REPORT

Addendum to histopathology report dated 22/01/2026

Patient Name:	**Mr. MOHAMMED ABDUL RAHIM**	Accession No.:	**KH/26/00874**
Age / Sex:	64 Years / Male	Original Report:	22/01/2026
Referred by:	Dr. Alok Shrivastava, Upvan Multispeciality Hospital, Bhopal	Addendum Date:	**30/01/2026**
Specimen:	Right hemicolectomy specimen (block B5)	Reason:	Additional IHC requested by treating team

ADDENDUM

Immunohistochemistry for mismatch repair (MMR) proteins was performed on block B5 at the request of the treating team.

Marker	Result in tumour cells	Internal control
MLH1	**Nuclear expression retained**	Satisfactory
PMS2	**Nuclear expression retained**	Satisfactory
MSH2	**Nuclear expression retained**	Satisfactory
MSH6	**Nuclear expression retained**	Satisfactory

Interpretation: mismatch repair proficient (pMMR) phenotype.

The diagnosis in the original report dated 22/01/2026 is unchanged. This addendum must be read together with the original report (Accession No. KH/26/00874).

Dr. Rekha Tiwari
